Supplement to Finch News, August, 2014

How to use this Price Guide

This Guide to prices has been compiled by The Queensland Finch Society Incorporated to facilitate the trading of finches. It should be stressed that the prices contained herein reflect the current market value of a parent-reared pair comprising male and a female of the species being of good quality and in a healthy condition. It should be noted that intra and inter-state price variations occur. You may have to pay extra for DNA sexed birds with certification. This document has no legal or moral binding on prices and therefore does not restrict a vendor in any way. Sellers at all times have the right to set their own prices on their stock. All prices are shown in Australian Dollars.

Colour Mutations in Gouldian Finches and Zebra Finches have proliferated to the point whereby space restrictions have necessitated abbreviating these species to major colour groups. Whilst “split” birds are not listed, it is generally accepted that the price of these birds is approximately 50% of a visually mutated specimen. In the case of “pieds”, the range of prices reflect the variations in this colour mutation. i.e. “light pieds” are valued substantially less than heavily marked pieds of 50% or more.

Permits and Movement Authorities from the State or Territory Governments may be required for the keeping and or moving of some Australian species. A check with the relevant Government Authorities should be made prior to moving or keeping any native species.

LEGEND:

H Denotes fewer Hens are available so it can be expected to pay more for a Hen.

C Denotes fewer Cocks are available so it can be expected to pay more for a Cock.

NEG Denotes the status of this species in Qld aviculture is indeterminable so we are unwilling to set a price. For many of these high priced species we would encourage those who hold them to co-operate in their breeding to ensure their viable survival in Australian aviaries.

NATIVE AUSTRALIAN FINCHES

Black Throat, Parson (White Rumped)	\$70	
Black Throat, Diggles (Black Rumped)	\$75	
Crimson (Black Bellied)	\$205	H
Crimson (White Bellied)	\$750	C
Double Bar (Black Rumped)	\$70	
Double Bar (White Rumped)	\$45	
Firetail (Beautiful)	NEG	
Firetail (Diamond)	\$90	
Firetail (Painted)	\$50	
Firetail (Red-eared)	\$900	
Gouldian (Black or Red-headed)	\$45	
Gouldian (Yellow-headed)	\$50
